### 2018-2019 Asbestos School Year Notification

As a result of federal legislation (Asbestos Hazard Emergency Response Act- AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. St. Raphael, Crystal has a goal to be in full compliance with this law and is following the spirit, as well as, the letter of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees.

An EPA accredited inspector has inspected all buildings (including portables and support buildings) owned or leased by St. Raphael, Crystal. An independent laboratory analyzed all asbestos bulk samples. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, St. Raphael, Crystal has completed the 3-Year Re-inspections required by AHERA. Our district buildings, where asbestos-containing materials were found, are under repair, removal and Operations and Maintenance. Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. MacNeil Environmental, Inc. will accomplish this under contract. Short-term workers (outside contractors-i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information.

St. Raphael, Crystal has a list of the locations(s); type(s) of asbestos containing materials found in that school building and a description and timetable for their proper managements. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to MacNeil Environmental, Inc., 1-800-642-6730 or by contacting St. Raphael, Crystal at 763-537-8401.

**Both new and existing families receive the Asbestos Notice via TADS when they enroll for the upcoming school year. Therefore for '18-'19 school we are not sending this page via the Back to School Mailing.**
